Submission Recommendations

- Original artwork should be created at print size or larger but must be in proportion to the print size.
- For digital submissions, 300 DPI/PPI/LPI is the ideal resolution.
- Because the final publication will be printed in black-and-white and grayscale, it is recommended that submissions are black-and-white or grayscale as well. Color submissions will not be rejected outright, but reproduction quality cannot be guaranteed and may be a factor in the selection process.
- Title and creator information will be printed on the page outside of the art areas whether or not this information is included in the artwork itself.
- Because this anthology is intended as a showcase of Triangle-based creators in 2019, we encourage submissions to be new or recently-created works.
- So that all participants can reach the widest possible audience, all submissions should keep to an approximate "G" or "PG" rating.
- We will make every effort to reproduce the artwork faithfully and precisely, including full-spread submissions that cross the page fold, but differences between original and reproduced artwork may occur.

Selection and publication information

- Submissions will be selected by a group of editors, and NOT ALL SUBMISSIONS WILL BE INCLUDED IN THE FINAL PUBLICATION.
- Artists who submit work will be notified whether they are selected prior to the publication's initial release at Zine Machine 2019 (October 13, 2019; more info at www.zinemachinefest.com).
- Copyright of all submitted works, whether or not they are included in the final publication, will be held by their respective creators. Copyright of the collection (but not its constituent works) will be held by Durham County Library. This information will be clearly indicated within the publication.
- Selected works may be used to publicize the collection in print and online venues.
- Selected contributors will receive 2 copies of the finished publication.
- Pricing will be between \$1 and \$5, depending on production details of the final publication. Profits of the publication will benefit the Friends of the Durham Library (www.durhamcountylibrary.org/friends), the primary source funding for the Triangle Comics Creator Network.
